

# **A&D** **EQUIPMENT** HIGH-PERFORMANCE EXCAVATOR ATTACHMENTS

## DECADES OF EXPERIENCE

A&D Equipment are experts in heavy excavator attachments. We support commercial, municipal, state, federal, DOI and DoD clients. As owners and operators of an excavating company for over 50 years, the products we sell are the **same products we depend on every day**. We offer a superior line of attachments based on years of global research, extensive field testing, and our strict demands of performance, safety, and sustainable technology.

## A TOOL FOR EVERY EXCAVATOR AND PROJECT

We carry five product lines with a wide range of models. Model sizes range from attachments for light and compact projects, up to heavy excavation and demolition. Our products are used to support military ground operations, humanitarian projects, disaster relief, public land management, and environmental sustainability. We service North America and have served customers in over 34 states, including Hawaii and Puerto Rico. Our attachment lines are specifically chosen based on speed, innovation, durability, and longevity.

## SPEED. INNOVATION. PERFORMANCE.

- We have been awarded over **3,200 contracts** in **34 states** and have **56 multiple purchase** returning clients, spanning over **10 years**.
- We have provided **10 Rotastar Screening buckets** to the Army for **DoD Humanitarian Demining Projects** and other products to help train artillery soldiers.
- We have provided products for the **DOI/Bureau of Land Management** to assist in managing public lands and to **USACE Districts** to help protect the environment and reduce disaster risk.
- We have supported the **Air Force** by providing products to help prepare warfighters.
- We support an expansive solar panel installation project spanning **175 miles in the State of Michigan** and **22 National Gypsum** plants across the country to assist with material recycling.
