Corporate Summary

For more than 50 years, A&D Equipment, Inc. , a 2nd generation family-owned company, has specialized in heavy excavation attachments.

We support commercial, municipal, state, federal, and DoD clients.

We have been awarded contracts across 47 states, including Alaska, Hawaii, and Puerto Rico, and several OCONUS locations across the globe.

Our attachments support 22 CONUS and OCONUS Gypsum plants, a 350-mile solar project, municipal and military infrastructure, and waste recycling.

Project Scope

DEMINING

The U.S. Army has deployed 15 Rotastar screening attachments to assist with humanitarian demining operations in several countries, including a specialized submersible unit manufactured specifically for the DoD.

INFRASTRUCTURE

The U.S. Air Force and the Air National Guard are using mechanical and hydraulic attachments to construct and manage military runways used by the 801st RHTS and the 184th Kansas Air National Guard.

RECYCLING

Canada and over 22 U.S. gypsum plants are utilizing the Rotastar screening attachment to recycle gypsum board, averaging over 6,000 lbs of product per week, drastically reducing landfill use.

PUBLIC LANDS

The DOI/BLM and the U.S. Army Corp of Engineers are operating hydraulic compactors and transverse rock cutters to assist in the management of public lands in Western Oregon and Wisconsin.

RENEWABLES

Corporations across the U.S. are using our attachments to install over 350 miles of solar fields, combat coastal erosion, recapture street sand with waste screening, and intensify efforts of on-site material recycling.

SPEED. INNOVATION. PERFORMANCE.
